RE: Recommendation for Mr. Joel Kramer

Dear Sir or Madam:

Mr. Joel Kramer is an outstanding stunt coordinator and person who has worked with me for over 15 years on 16 different major motion pictures. I am proud to call him a friend in addition to a colleague.

The amount of responsibility and skill a Stunt Coordinator must have while working on one of my movies is immeasurable. He must be extremely creative, highly innovative and absolutely original. He must also be very personable, dedicated, trustworthy and confident. Joel is a clear and excellent example of such a person.

He has achieved some of the most fantastic visuals I have ever seen or been involved with, and if one has watched any of my films, the wide extent of Joel's talents and capabilities are obvious. One thing that specifically stands out about Joel is his foremost regard for the safety of the cast and crew when executing all intricate stunts. Joel's intuition and knowledge are a must-have on any movie with stuntwork.

On a personal level, Joel has been my friend, training partner and travel companion for years. He has a positive attitude, great sense of humor and down-to-earth personality. He is a perfect person to have on the set because everyone respects and likes him.

While scheduling conflicts have rendered Joel unavailable for some of my projects, there is no question I would work with Joel whenever the opportunity presents itself. Without any hesitation, I strongly and highly recommend Joel for any movie project, and I truly believe any picture and crew would be fortunate to have him as their stunt coordinator.

Sincerely yours,

Arnold Schwarzenegger
