

To Who it may concern,

I have known Joel Kramer for over 35 years. He's always been a very good and professional man, as well as an amazing Stunt coordinator.

I have only seen him professional and safe. He loves what he does and is always protecting those under his guidance from harm during stunts and will not tolerate any unprofessional antics on set.

I have also worked with Eliza Dushku on Buffy and seen her at events, only to see her as a spoiled brat. On set she was nasty as well as hard to get along with as she was either on a rampage or on some kind of substance. I have read all the allegations towards Joel by Eliza Dushku, but frankly they do not add up to any truth. Anyone that knows Joel knows he's not in anyway shape or form the person her highly scripted over detailed body of lies, mainly trying to deceive.

No way will I believe these accusations from a substance abusive promiscuous party girl like Eliza, that has such a bad reputation for lying as well as the abysmal behavior I have witnessed her spew forth towards others on set.

Over 25 years later her trying to smash a good-hearted family man like Joel, is so absurd, and downright unbelievable.

I hope justice is served to these people that have caused such horrific emotional and financial damage to Joel and his family, friends and business associates.

May God forgive the troubled

Sincerely

Myke Michaels
